

Global Impact Innovators

Empowering Africa's Next Generation of Tech Leaders

3,348+	Learners Reached
7	Countries Operating
2,080+	Completed Programs
1,268	Active Participants

Who We Are

Global Impact Innovators (GII) is a 501(c)(3) nonprofit dedicated to empowering African entrepreneurs, particularly women and those in rural areas, by providing free, accessible tech startup and entrepreneurship training. We operate in Sierra Leone and Kenya, leveraging mobile technology and local language support to foster sustainable economic growth and innovation across the continent.

Our Vision

A thriving, inclusive tech ecosystem across Africa where women and young entrepreneurs in underserved communities have equal access to education, mentorship, and opportunities to create positive change and sustainable innovation.

Our Global Impact

Since launching operations in January 2025, GII has reached learners across Africa with transformative tech and entrepreneurship training:

- 3,348+ total learners across 7 countries | 2,080+ program completions | 1,268 active participants
- Sierra Leone operations: 720 students across 12 schools in Bo District (Term 2, April 2026)
- Mandatory ICT adoption at two institutions: St. Andrew's Secondary School (500 students) and United Brethren in Christ SSS (500 students)—the first mandatory institutional adoptions in Sierra Leone
- Bo Cohort 2 Entrepreneurship: 30 participants with 76.7% female representation
- Verified partnerships with Ministry of Basic Education Bo, ForestLand Foundation, and community organizations

Our Programs

ICT & Digital Literacy: Comprehensive tech and digital literacy programs delivered to secondary schools and communities, building foundational tech skills for students in underserved areas.

Entrepreneurship Training: Startup fundamentals, business planning, pitch preparation, and peer mentorship for aspiring African founders looking to scale their ideas.

Workforce Development: Industry-aligned skills training to prepare youth for employment, freelancing, and tech career pathways.

AI & STEM Education: Cutting-edge education in artificial intelligence, coding, and STEM disciplines tailored to African contexts.

Where We Operate

Our primary operations are centered in Sierra Leone (Bo District headquarters) and Kenya (Nairobi base), with partnerships extending across 7 African countries. We're expanding our reach through strategic partnerships including an upcoming bootcamp at the Kakuma refugee camp in partnership with AREL (African Refugee Leadership Initiative).

Global Impact Innovators

Flagship Initiatives

Bo Term 2 ICT Program (April 2026)

Our flagship initiative reached 720 students across 12 schools in Bo District, Sierra Leone. This structured program introduces digital literacy, coding basics, and tech entrepreneurship to secondary students, with curriculum delivered in English and Krio for accessibility.

Mandatory School Adoption

A historic milestone for African tech education: two institutions have integrated GII's curriculum as mandatory coursework. St. Andrew's Secondary School and United Brethren in Christ SSS now require all students to complete GII training, reaching 1,000+ learners across these institutions alone.

GII Connect: EdTech Platform

Our complementary for-profit platform delivers online courses in tech entrepreneurship, PM, freelancing, coding, and AI. GII Connect accelerates our reach beyond geographic limitations and creates pathways for global learners to access African-designed, culturally-relevant tech education.

Leadership

GII is Co-Founded and led by Charles Bond Kebbi (Managing Director), a U.S. Army veteran, Microsoft Teams Senior Program Manager (300M+ MAU), and IBM Watson AI Product Leader with 20+ years in tech and nonprofit leadership. Charlie holds triple citizenship (Sierra Leone, Canada, USA) and has visited 132 countries, bringing global perspective to African tech empowerment.

Strategic Partnerships

- Ministry of Basic Education (Bo District)
- ForestLand Foundation (Sierra Leone)
- University Internship Partners (curriculum delivery support)
- African Refugee Leadership Initiative (Kakuma Partnership)
- YiAPA, SLLCA, Local Youth Organizations
- Tech industry partners (AWS, Microsoft, cloud computing platforms)

Recognition & Milestones

- IRS 501(c)(3) Determination: December 4, 2025
- Sierra Leone Registration: Ministry of Social Welfare (MoSW/VOL/BO/25/026)
- Bo District Council Registration & NNGO Association Recognition
- First institution in Sierra Leone to adopt mandatory tech curriculum
- Reached 3,348+ learners across 7 African countries (as of May 2026)

Why Support GII?

- **Proven Impact:** Measurable reach (3,348+ learners) with strong completion rates and institutional partnerships
- **Local Leadership:** Founded and led by African and diaspora leaders with deep community roots
- **Sustainable Model:** Combining grants, social enterprise (GII Connect), and community partnerships for long-term viability
- **Addressing Critical Gaps:** Free tech education in regions where it's most needed, with 76%+ female representation in entrepreneurship cohorts
- **Scalable Systems:** Curriculum and platforms designed for rapid scaling across African countries

Global Impact Innovators

Get Involved

- **Donate:** Support scholarships, curriculum development, and program expansion
- **Partner:** Collaborate on tech training, internships, or research initiatives
- **Volunteer:** Mentor entrepreneurs, teach coding, or support operations
- **Invest:** Support GII Connect's scaling through impact investment
